

Youth Summit Agenda

The **WorldSkills UK Youth Summit** will give you the chance to be heard on one of the biggest issues facing this generation, the challenge of careers advice. We are inviting leaders from government and business to come and listen rather than talk - so you can present real solutions direct to these decision makers!

Are you 16 – 24? Think Careers Advice can be better? Want to effect change? Passionate about issues that affect you? Come and do something about it! Come to the WorldSkills UK Youth Summit! **Please find the full programme for the day below.**

Delegates will then deliver their pitches on the main stage of The Skills Show to senior representatives from business and government.
