

Stereotypes within careers

Print off enough copies so that students can work in pairs or small groups with one copy between them.

Cut out each of the cards and mix them up, placing them into an envelope.

Give each group of students an envelope and give them 3 minutes to match the statistics to the career. Keep hold of a completed sheet so you can share the results.

Female 12% Male 88%	Construction
Female 19% Male 81%	Transport & Storage
