

Local skills competitions - case study videos brief and questions

Thank you for contributing to our case study. Your recorded responses will help showcase the impact of **WorldSkills UK endorsed local skills competitions** in raising excellence and preparing learners for employment or national competitions.

To help frame the case study effectively, it would be beneficial if interviewees could touch on the points in brackets when answering the questions.

- Please ensure that all references are to WorldSkills UK (not WorldSkills, as they are different entities).
- The correct terminology for our support is 'Endorsed by WorldSkills UK' - please avoid terms like 'partnership' to prevent confusion with other WorldSkills UK programmes.

Questions:

1. How has being endorsed by WorldSkills UK elevated the quality of your skills competitions?
(In the response, please highlight how the endorsement process contributes to the credibility of the competitions)
2. What impact has running WorldSkills UK endorsed competitions had on learners and staff?
(Please structure the response to first focus on learners, followed by staff)
3. What benefits have you seen from running the inter-college competitions today?
(In the response, please consider aspects such as staff development and the wider college community.)

Please share the raw footage with us—we'll handle the editing and send it for your approval before anything is shared externally. You can send it via WeTransfer to Nikki at **nisant@worldskillsuk.org**.

If you have any footage of learners in action during the skills competition and have their permission to share, we'd love to include it in our video.

Kind Regards,
WorldSkills UK
